PROFESSIONAL SUMMARY

Software Engineering student at the Federal University Oye-Ekiti (FUOYE), building practical web development skills through hands-on projects. Founder of Map_Technologies, a growing web development brand focused on websites for businesses, creators, and professionals. Currently developing skills in HTML and CSS while learning JavaScript. Interested in creating responsive, user-friendly websites, gaining practical experience, and contributing to meaningful projects.

TECHNICAL SKILLS

- **HTML:** Page structure and semantic elements.
- **CSS:** Styling, layouts, and responsive design fundamentals.
- **JavaScript:** Beginner-level learning and practice.
- **GitHub:** Hosting repositories and managing project files.
- **Development tools:** Visual Studio Code and Vercel.

PROJECTS

1. Map_Technologies Portfolio

Live website: https://map-technologies-portfolio.vercel.app/

- Developed a portfolio website to introduce the Map_Technologies brand and showcase web development services and projects.
- Organised content into services, projects, about, and contact sections.
- Implemented responsive layouts and mobile navigation.
- Added contact links and social media links to help prospective clients get in touch.

Technologies: HTML, CSS, JavaScript.

2. FreshCut Barbershop Website Concept

Live website: https://freshcut-barbershop-hazel.vercel.app/

- Developed a practice website concept for a barbershop to present services and booking information.

- Practised responsive layouts, styling, and clear calls to action.
- Focused on a clean interface designed to work across different screen sizes.

Technologies: HTML and CSS.

ENTREPRENEURIAL EXPERIENCE

Founder — Map_Technologies

- Developing a web development brand focused on business websites, personal portfolios, and landing pages.
- Building practical projects to improve technical skills and demonstrate current capabilities.
- Communicating with prospective clients to understand their needs and discuss project requirements.
- Developing an understanding of project scope, website presentation, and client communication.

EDUCATION

Federal University Oye-Ekiti (FUOYE)
Bachelor of Science (B.Sc.) in Software Engineering
2025–2029 (expected)

PROFESSIONAL STRENGTHS

- Commitment to continuous learning.
- Practical, project-based approach to development.
- Attention to website layout and usability.
- Clear communication and honest expectations.
- Willingness to learn, accept feedback, and improve.

CAREER OBJECTIVE

To grow into a competent software developer by strengthening my technical foundation, gaining practical experience, collaborating on meaningful projects, and continuously improving my ability to build useful digital experiences.
